

Survival Guide for WATERTECH CHINA 2024

Thank you for participating in WATERTECH CHINA 2024, which is the 16th edition will be held at NECC Shanghai from June 3rd to 5th, 2024. It's a major hub for water treatment, featuring forums, matchmaking, and global collaboration.

To help you enter smoothly, please **fill in your passport information** at the following link that you already pre-registered.

<https://ali5.infosalons.com.cn/reg/watersh24co/app/?lang=en-US>

Due to the venue's requirement for real-name registration, registering in advance through this link can help you to avoid queues and seamlessly arrange your entry. Otherwise, you will need to fill out real-name registration information on-site.

After arriving at the venue, you'll need to go to the **overseas visitor reception counter** (available at both the east gate and south gate) to **scan the QR code** and enter your **email/passport number** to obtain your **admission badge** (free printing). There will be dedicated staff to assist you throughout the process.

Here is a *survival guide* to help you have a better experience.

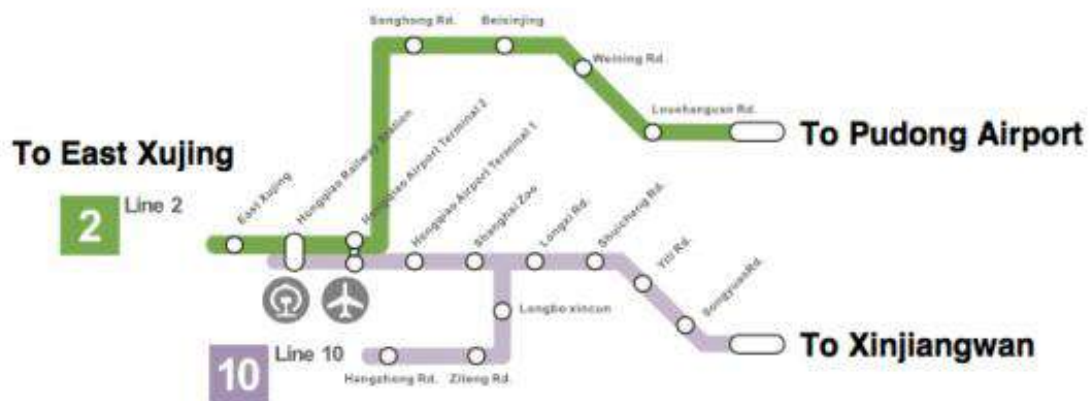

1. Transportation

(1) Flight

There are 2 airports in Shanghai – **Hongqiao International Airport & Pudong International Airport**. You can choose either airport, while Hongqiao International Airport is much nearer to the venue.

(2) Metro-West Entrance

Starting Point	Route	Cost	Time
From Pudong International Airport to NECC	Take Line 2 and get off at East Xujing Station (Exit 4 / 5 / 6)	RMB 9	2 hour 10 min
From Hongqiao Airport to NECC	Take Line 2 and get off at East Xujing Station (Exit 4 / 5 / 6)	RMB 3	30 min
From Shanghai Hongqiao Railway Station	Take Line 2 and get off at East Xujing Station (Exit 4 / 5 / 6)	RMB 3	35 min

2. Hotel

To express our gratitude for your participation in our conference, the organizing committee is committed to providing accommodation convenience for exhibitors and visitors of WATERTECH CHINA 2024. We are pleased to offer specially negotiated discount rates at select hotels during the exhibition period. Due to high demand for hotel rooms, we encourage early reservations to ensure availability.

Additionally, for your convenience, shuttle bus services will be provided from the listed hotels to the exhibition venue. Below is the list of hotels:

	Hotel Reservation	Contact
1	InterContinental Shanghai Expo	+86 15000964696
2	Primus Hotel Shanghai Hongqiao	+86 15821922391
3	Holiday Inn Shanghai West	+86 18964359375

You can pre-book any of these three hotels in advance for your convenience and experience. The contact information for each hotel is also provided in the table.

3. Entrance

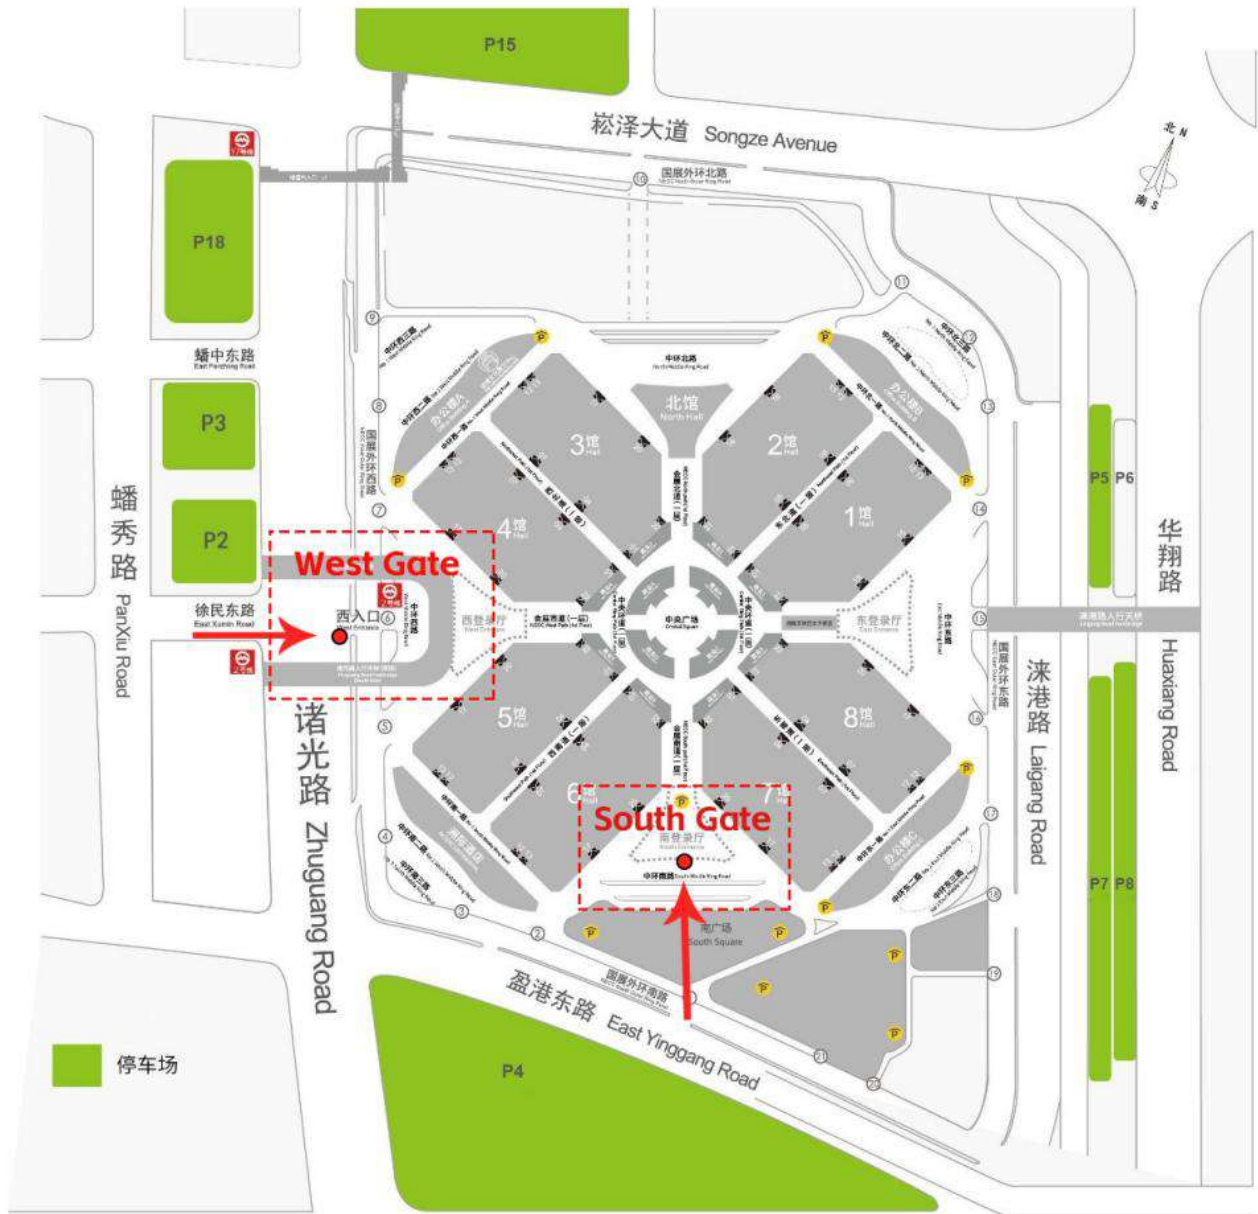

When attending, please ensure to bring the following items:

- Your **original passport**
- The QR code received with our **Confirmation Letter**

To prevent overcrowding, visitors can access our exhibition area through **two entrances**:

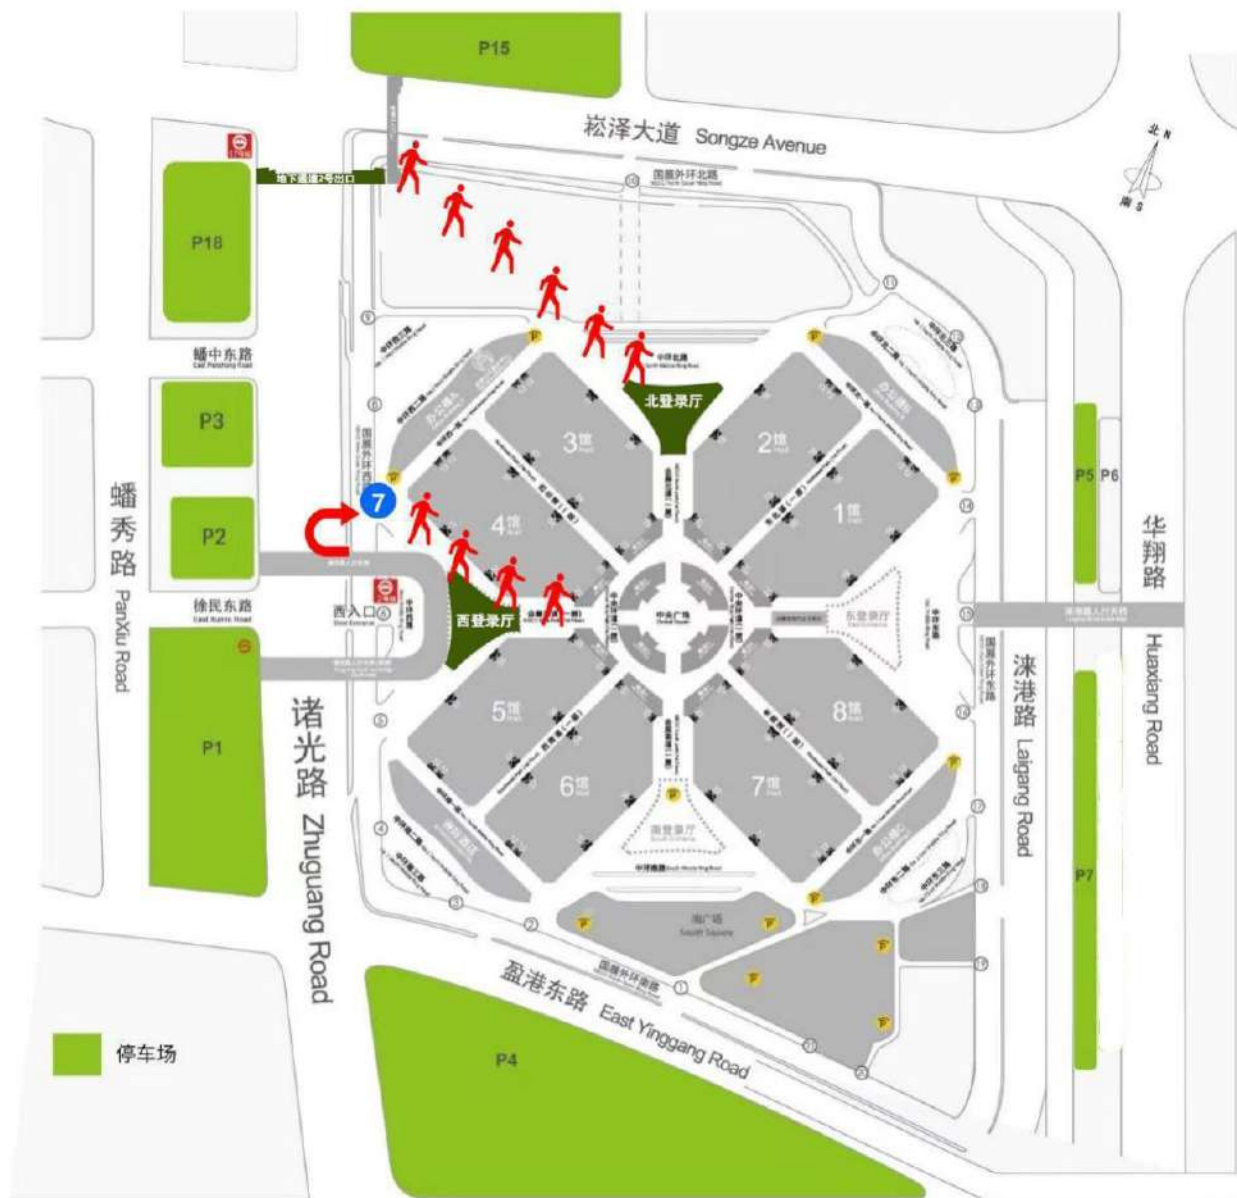

- **South Gate** (Located near East Yinggang Road): **For our international guests, we have established a *VIP Express* at this entrance to facilitate swift access to our exhibition venue.**

- **West Gate** (Located at the intersection of East Xumin Road and Zhuguang Road): *For those opting to travel by metro, we recommend using this entrance for direct access to our exhibition site. And we also have established a **VIP Express** for international guests.*

Here is how to get to the venue by public transport:

01. Metro Entry Routes for Visitors:

8. International conference

International Water Leaders Forum (IWLF) 2024 (Bilingual)

Date: June 3rd, 2024

Time: 13:00-17:00

Venue: National Exhibition and Convention Center, Shanghai, **Hall 8.1 ,901(Conference Room A)**

The IWLF is a premier forum held during the Shanghai International Water Exhibition. It addresses current topics in industrial water treatment and gathers policymakers, industry representatives, and technology providers. The 2024 forum, co-hosted by Herui Group and Global Water Intelligence, will focus on high-quality development in industrial water treatment, discussing strategies for carbon neutrality and the integration of smart technologies in water management.

2024 China Membrane Industry Development Summit (Bilingual)

Date: June 3-4, 2024

Time: June 3rd 10:00-17:00

June 4th 10:00-16:00

Venue: National Exhibition and Convention Center, Shanghai, **M702\M802\Hall 7.1 ,595**

This summit is organized by the Membrane Industry Association of China and other supporters, aiming to promote dialogue and cooperation within the membrane industry. The event covers technological innovations and market trends across various sectors such as petrochemicals and water purification. It also emphasizes strengthening international collaborations to help Chinese membrane enterprises expand globally.

2024 Digital Water Innovation Summit (2nd Edition) (Bilingual)

Date: June 3rd, 2024

Time: 8:30-17:30

Venue: National Exhibition and Convention Center, Shanghai

The Digital Water Innovation Forum explores the integration of digital technologies like AI, IoT, and big data in water management. This event aims to facilitate the exchange of technological expertise and experiences, promote intelligent water management solutions, and support the global establishment of efficient informatization systems. It coincides with WieTec 2024, featuring extensive exhibitions and expert discussions.

Asian Water Treatment Technology Exchange and Supply and Demand Matchmaking Conference (Bilingual)

Date: June 3, 2024

Time: 13:00-17:00

Venue: National Exhibition and Convention Center, Shanghai, **M703**

This forum aims to delve into cutting-edge technologies, policies, and experiences in international water treatment. By facilitating exchanges and collaborations within the water treatment field, both internationally and within the industry, the forum seeks to advance the development of municipal and industrial water treatment sectors. With participation expected from renowned experts and scholars, as well as key decision-makers from around 200 domestic and international buyer enterprises, the event promises to be a significant platform for sharing insights and fostering partnerships in the realm of water treatment.
