

WATERTECH CHINA 2025

17th Shanghai International Water Show

National Exhibition and Convention Center (Hongqiao), Shanghai

June 4-6th 2025

Organizers

Co-organizers

As China's economic restructuring deepens and the dual carbon national goals advance, the government continues to focus on the effects of climate change and the need for sustainable and renewable energy sources. The significance of water issues in the China market has never been more evident.

The water treatment industry is undergoing unprecedented transformation. The wastewater treatment market is evolving from simple pollution control to comprehensive water environmental governance and integrated resource management. Simultaneously, the rise of new energy industries and increasing commercial water demand are creating new opportunities. Additionally, the consumer market for water treatment is expanding, with Point of Use/Entry equipment and drinking water solutions gaining popularity. These include various drinking water devices, OEM products, and accessories designed to ensure safe, clean water at the point of consumption, highlighting the growing importance of residential water products.

In this transformative context, our exhibition not only provides you with a valuable opportunity to gain insights into the Chinese market but also serves as a crucial platform for accessing the global market, including Southeast Asia, Japan, Korea, Middle East, and Europe markets. The exhibition will bring together industry leaders from these regions, creating direct connections with clients from these regions. You will have the chance to showcase your products and solutions, expand your influence in these high-potential markets, seize new business opportunities, and collaborate with global industry leaders to drive your international business growth.

Why WATERTECH | | | | | | | | |

WATERTECH CHINA is the world's largest international exhibition for process, drinking & wastewater. As the annual feast of the water treatment industry, the 3-day trade show, which covers display area of 190,000 square meters, not only brings together 2,500+ exhibitors around the world, but also attracts 100,000+ professionals from more than 100 countries and regions.

- ♦ The World's Largest Water Event
- **♦** Access to a Large, Growing Market
- Reach Buyers Across 28 Industries
- Showcase Latest Products and Technology
- © Grow Brand Visibility and Market Exposure
- Build Bridges to Success

With WATERTECH CHINA 2025, the possibilities for your business growth are limitless!

Find out more about how you can bring your business into China today!

Who Attends WATERTECH CHINA

Total Exhibitors: 2,571

Total Visitors: 111,444

Oversea Buyers: 4,327+

Audience Industry Category

- Distributors/Dealers/Importers and Exporters
- Equipment and Material Manufacturers
- Engineering and Construction
- Heavy Industry Users
- Municipal and Public Utilities
- Light Industry Users
- Research and Designing Institutes
- Commercial / Utility Users

Industries Sectors Presented

During the event, in addition to the government departments, traditional municipal constructors, engineering (installation) companies, designing institutes, distributors and traders, dealers, exhibitors could reach buyers in **28 industries**

Food, Beverage, Brewing, Textile, Leather, Dyeing, Paper Making, Printing, Petroleum, Chemical Engineering, Pharmaceuticals, Mining, Steel, Metallurgy, Rubber and Plastics, Cement, Electricity Power, Electronics, Automotive, Shipping, Machinery, Construction, Gas, Public Facilities, Municipal Administration, Water Conservancy, Agriculture.....

How to Enter into China's Market

In-depth Industry Conference and Seminars

- Digital Water Innovation Forum
 - Main Forum
 - Digital Water Innovation
 - Sub-Forum
 - Digital Transformation in Water Utilities
 - Artificial Intelligence + Water Services
 - New Development (English Forum)
 - Intelligent IoT Perception
 - Data Element x Water Services

Academician of the Chinese Academy of Engineering Professor at TongJi Univrsity

Academician of the Chinese Academy of Engineering, Professor at the School of Environment, Harbin Institute of Technology

Fellow of the Royal Academy of Engineering, UK Professor at the In University of Sheffield

Oliver Grievson

y Chairman of the Digital
Water Committee of the
International Water Association

Professor at the National University of Singapore

- Industry Water Leader Forum (IWLF)
- 2025 China Membrane Industry Development Summit

Business Matchmaking

International Buyer Programme - Exclusively reserved for qualified and selected buyers

Our exclusive International Buyer Programme aims to facilitate direct contact between current exhibitors and selected international importers or distributors. The programme integrates effective B2B meetings and trade shows for companies who wish to expand their business worldwide. Buyers are encouraged to leverage the resources and platform of this programme to develop concrete business opportunities with our exhibiting companies.

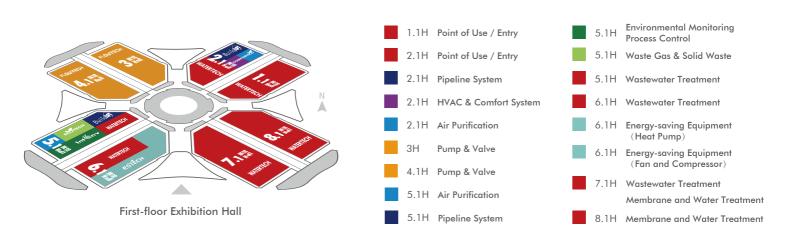

Major Domestic Buyers (Partial List)

Company Name Company Name Jiangsu Qidong Warm Baby Heating Co., Ltd. Shengjian (Shandong) Technology Co., Ltd. Yindan Investment Partnership LLP, Shenzhen Hegang City Qingquan Water Treatment Equipment Co., Ltd. Hangzhou Xiaoshan Jinghefang Water Treatment Equipment Store Yongkang Wanwu Valley Household Products Co., Ltd. Huzhou Kabang Technology Co., Ltd. Suzhou Rongyuanchang Environmental Protection Engineering Co., Ltd. Shanghai Urban Architectural Design Co.,Ltd. Suzhou Lantai Fluid Equipment Co., Ltd. Guangzhou Lanyue Environmental Protection Technology Co., Ltd. Tangshan Longyuanju Construction Engineering Co., Ltd. Shanghai HYP-ARCH Architectural Design Co., Ltd. GeneCare Green Hydrogen Ltd.
